

## **NOTICE TO TRAP LEAGUE MEMBERS TRAP LEAGUE STARTS MAY 6, 2010**

We are entering the computer age at the trap league which will require some changes.

1. The dues for the spring league are remaining the same at \$80.00 for the eight week league. We are no longer accepting a weekly pay program. The entire amount will be due by the close of business of the second week which is May 13, 2010. If not paid by then your name will be removed from the computer.
2. The league President, Treasurer and others will be available for the first 2 weeks only. After that, the score cards will be in alphabetical order on the table for teams to pick up when you are ready to shoot. There will be a box to return the score sheets. They will be picked up after close of business, refigured and new score sheets with new handicaps will be available the next week at the table.
3. The same calculations for handicaps will be used. Make ups will have the same flexibility but may delay the posting of your scores and handicap for that particular week. As a team you need to police each other.
4. A captain's meeting is scheduled for 7:30PM on May 6, 2010 to discuss the changes. We have purchased computer software to streamline the record keeping.
5. **Please pass this on to other trap league shooters.**

We think there is no need to sit there every week to collect money and figure scores. No one has stepped up to keep the trap league going because of commitments of time. This should help that problem. Any questions may be directed to Larry Sorensen, trap league President at 319-404-1211.
